Hard to believe that this journey is coming to an end. For some of you, we have been together for six years. I started my teaching career at The Queen City Academy Charter School and my first class of students are graduating this year. For others we joined each other at Plainfield High School back in 2012. I am amazed at how you all have grown up to be wonderful people! I hope that my calm spirit and my personality have left a lasting impression on you. I want you to understand that, "Who you are," is the most important question you have to answer in this life! Everything else will fall into place. Life is tough, but you must learn to dance between the rain drops. You all will face trials and tribulations – but you must persist. Remember to enjoy this moment, because we can never get it back. Time in life is like a river, it only flows through once. Stop, ponder, & meditate on the idea that life will never be the same again. You will never be a 17 year old senior graduating from Plainfield High School with all of your friends. Although that thought may seem scary, use it as a tool to stay present and grounded in your current station. I want to leave you with a quote from Jerry Zucker: "It doesn't matter that your dream came true if you spent your whole life sleeping. So get out there and go for it, but don't be caught waiting. It's great to plan for your future. Just don't live there, because really nothing ever happens in the future. Whatever happens happens now, so live your life where the action is — now!" Enjoy the present, while chasing your dreams with tenacity!
